+82) 010-3336-1007 in7257@gmail.com hyoinlee1007.github.io

EDUCATION

Mar. 2019 ~ Dec. 2026 Daejeon, Korea

Chungnam National University

Department of Mechatronics Engineering

B.S. in Mechatronics Engineering · GPA: 4.07 / 4.5

Thesis: Multi-Floor Delivery Robot Platform Utilizing Imitation Learning

Advisor: Jinseong Park

RESEARCH EXPERIENCE

Research Intern at GIST AI Lab

Gwangju Institute of Science and Technology, Korea · Jul. 2026 ~ Present

Department of Computer Science.

Research Intern at Intelligent Control & Interactive Robotics Lab

Chungnam National University, Korea · Dec. 2025 ~ Jun. 2026

Department of Mechatronics.

Robotics Engineering Intern at Burnyoung

Burnyoung, Korea · Feb. 2024 ~ Jun. 2024

Robotics Development and Mechanical Design

PROJECTS

Web Video-Based Robot Behavior Data Generation

Gwangju Institute of Science and Technology, Korea · Jul. 2026 ~ Present

Generating robot behavior data in simulation by combining Do As I Do retargeting with contact-aware methods.

Admittance-Guided Imitation Learning for Contact-Rich Manipulation

Chungnam National University, Korea · Dec. 2025 ~ Jun. 2026

Developed an imitation learning framework that estimates external force from motor currents and applies admittance control for compliant contact-rich manipulation.

Multi-Floor Delivery Robot Platform Utilizing Imitation Learning

Chungnam National University, Korea · Jan. 2025 ~ Dec. 2025

Developed a delivery robot capable of autonomous navigation, elevator button recognition, and multi-floor delivery.

Control of a 2-DOF Robotic Arm on a Differential Drive Mobile Robot

Chungnam National University, Korea · Mar. 2025 ~ Jun. 2025

Derived robot dynamics and implemented model-based PID control and trajectory generation for a 2-DOF manipulator mounted on a differential-drive mobile platform.

RecurDyn-based Item Sorting Simulation

Chungnam National University, Korea · Mar. 2024 ~ Jun. 2024

Developed a dynamic simulation using a UR3 robotic arm for object classification and sorting.

CONFERENCES

1. **HyoIn Lee, Jinseong Park**

   "Admittance-Guided Imitation Learning for Contact-Rich Manipulation,"

   ICROS 2026, Daegu, Korea · Jul. 2026 · Poster

RESEARCH INTERESTS

- Reinforcement Learning
- Robot Dynamics & Physical Interaction
- World Foundation Models
- Cross-Embodiment Learning
- Sim-to-Real Transfer

AWARDS & HONORS

High-Tech Robot Industry Director's Award
Chungnam National University, Korea · Aug. 2025

Excellence Award (Silver Prize), MAZE Line Tracer Competition
Dankook University, Korea · Aug. 2022

PROGRAMMING

Python: Intermediate

C++: Intermediate

MATLAB: Proficient

PyTorch: Basic proficiency

ROS2, Simulink, MuJoCo

LANGUAGE

English: OPIc IH, TOEIC 795
- Reading & Listening: Working proficiency
- Speaking: Basic to intermediate
